JACKPOT PAYBACK: £10K GUARANTEED IN CASH AND PRIZES

What is it?

A cash game promotion resulting in a party night with a guaranteed £10K's worth of cash and prizes given away via a raffle.

When is it?

Saturday 3rd June, starting around 8pm, with draws for cash and prizes every hour and more.

How does it work?

For the next 17 weeks every 8hrs of play will earn players 1 raffle ticket for the draw of prizes. More hours of play means more raffle tickets in the draw. We will continue to take £1 from every pot over £30 but will be splitting it up and putting 25p aside for the Jackpot Payback and putting the remaining 75p into the current Jackpot fund. There is no admin fee for this.

Why?

When talking to regular customers about cash promotions many were disappointed that they had never been part of a Royal Flush pay-out which is surprising as we have given away over £250,000 of pay-outs in the last 24 months. We decided to portion off 25% of the collection for a set time and give it back on a determined date. We debated having a cash race but many players didn't like having to play with the cash for a certain period, especially tournament style. After lots of consultation with customers we decided to keep it simple and just give it back via a raffle.

What if I can't make it on Saturday 3rd June?

Sorry to hear you can't make the party, cake, cash giveaway and prizes! It's not all bad; there are other benefits for cash game players running at the moment. - We are keeping the 'Rakeback' promotion for another season; we are also keeping the 235Hand promotion as it is extremely popular. #3/5suited for the win!

I love the idea, I'm excited already, what do I need to do?

Nothing more than play some cash game poker, every 8hrs of tracked play earns you another raffle ticket in the draw, more tickets means more chances of winning. Make sure you show your Reward Card to the poker desk, raffle tickets are for Player Reward card holders only.
